Your guidance and encouragement came at a crucial time —you let us know we were doing the right thing, that we were not the “crazy, overbearing parents” that wanted our child to get straight “As,” but rather, we were fighting to get our son the help he needs to save his love of learning and to keep him emotionally healthy.

You are a life saver!!!!!!!!!! Thank you so, so much!!!!

Just wanted to take the time to thank you for speaking to me. The information you gave me was very helpful. It empowered me in ways I cannot even express. For the first time I felt prepared and comfortable with the process. As a result of this I went into that IEP meeting confident and knowing what my son deserves. Thank you so much. Thank you for taking the time to speak to me and following up with me too.

Thank you for your presentation last week. I loved how interactive you made the workshops, inviting attendees to feel free to ask questions and join in the conversation. You have a very open and friendly way that encourages people to feel welcome and appreciated. I am sure that each attendee benefited from your insight on special education from the parent's perspective.

THANK YOU for sharing this document. It's just outstanding – so well organized and easy to understand!! I can't wait to share this with my families.

I wanted to personally thank you for the difference you are making in hundreds of students and their families' lives. You educate parents on the rights of their children with special needs and ensure that districts provide for these rights. Your work helps make sure that every student gets the proper education that they deserve. You help parents understand IEP's, their child's least restrictive environment, and resource rooms. This allows parents to be a part of their child's academic process, while finding the environment where their child feels the most comfortable learning. The information you provide parents helps them navigate special education and become their child's best advocate.
