

Anatomy of an IEP

for Military Families

October 29, 2024 | 12:00 p.m. - 1:30 p.m.

Like a biology lesson, this presentation dissects the IEP, examines the parts individually, discusses the function of each section, and how the parts come together to create an effective document. You will learn constructive and practical tips to help create an IEP that supports the student's access to a free and appropriate public education and gain an understanding on how to manage special education when moving to a new town, city or state.
